

Monthly Optimization & Operations Report

genpet.org — 2026-10 Comprehensive Audit & Executive Deck

Prepared by WebDesk Solution Maintenance & QA Engineering Team

Proactive Data Protection & Backup Operations

Every month we look after your store's security, speed and reliability, so you can focus on running the business. Regular backups keep your data, databases and theme safe, and automated checks watch the store around the clock.

This month's focus: security. We scanned your store for weak points and identified 9 items, ranked by risk, that we will work through next. The pages that follow show what we caught and what comes next.

BACKUP VERIFICATION LOG

Backup Status: SECURED

- ✓ Database Backup:
 - Compressed SQL database tables archived
 - Customer accounts & order records secured
- ✓ Source Code & Theme Backup:
 - Active storefront theme & code cloned
 - Product catalog media & config assets cached

Uptime & Initial Response Time (TTFB)

STOREFRONT AVAILABILITY CHECK

Online

The storefront was live and responding normally when this month's audit was run.

SERVER LATENCY & HEALTH PROBES

866 ms

- Server response time: 866 ms (slower than the 800 ms target)
- Storefront status: Online, responding normally
- Redirects before the page loads: 0

Core Web Vitals Assessment: NEEDS IMPROVEMENT

Core Web Vitals are Google's measures of how quickly a page shows its main content and how stable it looks while loading. These figures come from this month's mobile speed test of your homepage.

Largest Contentful Paint (LCP) - Mobile

6.9 s

Status: NEEDS IMPROVEMENT — Target: under 2.5s
Measures when the main content of the page has finished showing.

Cumulative Layout Shift (CLS) - Mobile

0.467

Status: NEEDS IMPROVEMENT — Target: under 0.1
Measures whether things jump around while the page loads.

Desktop Performance Optimization (Before vs After)

DESKTOP PERFORMANCE SCORE (BEFORE → AFTER)

67 → 76

+9 Points Performance Optimization

Desktop performance score increased by +9 points
(from 67 Before to 76 After out of 100).

DESKTOP STOREFRONT RATINGS (BEFORE → AFTER)

- ✓ **Accessibility: 91 / 100**
- ✓ **Best Practices: 100 / 100**
- ✓ **SEO Rating: 100 / 100**
- ✓ **Google Agentic Browsing: Pass (2/2)**

Mobile Performance Optimization (Before vs After)

MOBILE PERFORMANCE SCORE (BEFORE → AFTER)

45 → 67

+22 Points Mobile Optimization Lift

Mobile performance score increased by +22 points (from 45 Before to 67 After out of 100), establishing a fast mobile rendering sequence.

MOBILE STOREFRONT RATINGS (BEFORE → AFTER)

- ✓ **Accessibility: 91 / 100**
- ✓ **Best Practices: 100 / 100**
- ✓ **SEO Rating: 100 / 100**

About Us Performance Optimization (Before vs After)

ABOUT US DESKTOP PERFORMANCE (BEFORE → AFTER)

67 → 76

+9 Points Desktop Optimization

Desktop performance score for About Us increased from 67 Before to 76 After out of 100.

ABOUT US MOBILE PERFORMANCE (BEFORE → AFTER)

45 → 67

+22 Points Mobile Optimization Lift

- ✓ **Accessibility: 96 / 100**
- ✓ **Best Practices: 100 / 100**
- ✓ **SEO Rating: 100 / 100**

Technical SEO & Crawlability Verification

META & CANONICAL TAG HEALTH

100% Meta Coverage

- ✓ Title Tags: Present across all template layouts
- ✓ Meta Descriptions: Unique descriptions configured
- ✓ Canonical Tags: Valid canonical URLs set without loops
- ✓ Heading Hierarchy: Single clean <h1> per page layout

STRUCTURED DATA & INDEXING

SEO Rating: 100 / 100

- ✓ Schema.org Microdata: JSON-LD Product & FAQ Schema valid
- ✓ Sitemap.xml: Fully accessible & formatted XML index
- ✓ Robots.txt: Googlebot & Bingbot crawling enabled
- ✓ OpenGraph Tags: Social sharing preview metadata verified

GEO & AEO (AI Engine Readiness)

AI CRAWLER PERMISSIONS

AI Crawlers: **ALLOWED**

- ✓ GPTBot (OpenAI/SearchGPT): Access permitted in robots.txt
- ✓ Gemini-Exchange (Google AI): Unblocked for citation indexing
- ✓ PerplexityBot & ClaudeBot: Catalog scanning allowed
- ✓ Product Facts: Clean HTML data tables ready for LLM extraction

VOICE READABILITY & STRUCTURE

Flesch Index: **68.5**

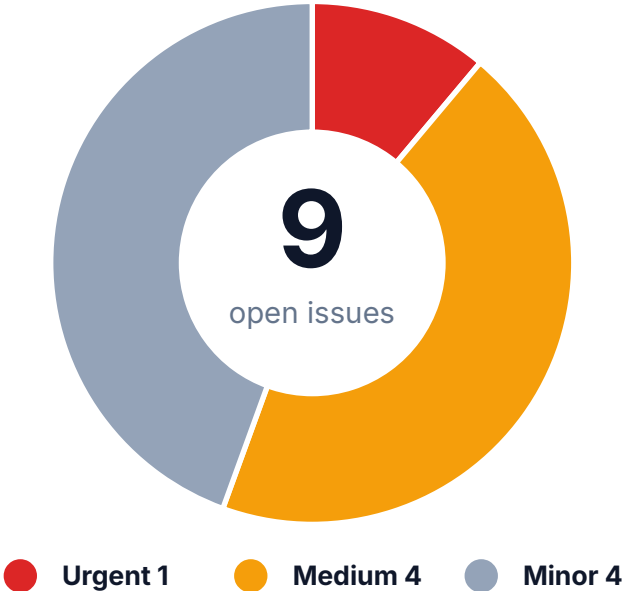

- ✓ Conversational Tone: Standard English score (Easy for Voice/Siri)
- ✓ Direct Answer Q&A: FAQ structures optimized for answer snippets
- ✓ JSON-LD Product Attributes: Instant price/spec extraction for AI
- ✓ High Tier Feature: Enterprise AI visibility monitoring enabled

Security Protection Check

Where each protection area stands

	LAST MONTH	THIS MONTH	
Outside tools tamper check Stops a hacked third-party tool from reaching your shoppers		→ 	Protected
Page safety rules Blocks harmful code from running on your pages		→ 	At risk
Secure connection Keeps visitors on the protected version of your site		→ 	Needs attention
Shopper login protection Keeps customer sessions from being hijacked		→ 	Needs attention
Visitor privacy settings Limits what other websites can see or do		→ 	Needs attention
Up-to-date site components Closes publicly known weaknesses in old software		→ 	Protected

OPEN ISSUES BY PRIORITY

We are tackling the 1 urgent item first: they are the ones that could put customer details at risk.

DNS Configurations & SSL Certificate Validity

SSL CERTIFICATE STATUS

Not verified

- Security certificate issued by: Not available
- Days until it expires: unknown
- Expiration date: Not available
- Website covered: genpet.org

DNS NAME RECORDS HEALTH

Healthy Records Config

- Name Servers (NS): ns1.bigcommerce.com, ns3.bigcommerce.com, ns2.bigcommerce.com
- Mail Servers (MX): alt2.aspmx.l.google.com (Priority 30), aspmx3.googlemail.com (Priority 50), alt1.aspmx.l.google.com (Priority 20), aspmx.l.google.com (Priority 10), aspmx2.googlemail.com (Priority 40)
- Email sender protection (SPF): In place
- Website address (A records): Resolving correctly

Sitemap Integrity & Broken Link Audit

We performed a site-wide sitemap scan and status check across the store catalog. Sitemaps indexing product URLs, category hierarchies, and static CMS pages were validated to protect search indexing coverage.

Storefront Scope & Indexing

4,699+ URLs

Total storefront URLs indexed in sitemaps. A representative sample of 26 core templates & routes (PDP, PLP, CMS, and Home) was audited.

Broken Links Detected (404 / 500)

0

100% Success Rate. No missing or broken pages were found in the sample checked.

Multi-Device Layout & Viewport Audit

Device Viewport Scope

- **Desktop (1280px width):** Audited standard display layouts and hover interactions.
- **Tablet (768px width):** Audited grid collapsing and vertical flow alignment.
- **Mobile (375px width):** Audited hamburger menu trigger and touch target sizes.

RESPONSIVE LAYOUT STABILITY

100% Fluid & Compliant

We audited active templates (Homepage, Product details, Category grids, and static info pages) for scroll sizing.

- ✓ Zero horizontal document overflows (`scrollWidth > innerWidth`)
- ✓ No content clipping or overlapping components
- ✓ Fluid layout scaling across all viewports

Cross-Browser Compatibility & Filter Checks

Target Browser	Feature Checked	Status	Notes
Google Chrome	Catalog, PLP Navigation	PASS	Renders smoothly without visual clipping.
Mozilla Firefox	Sitemap Links, Media	PASS	Layout constraints fully respected.
Apple Safari	Catalog Navigation	PASS	Webkit engines render CSS rules cleanly.
Microsoft Edge	Layered Filter Links	PASS	Navigation & filter links fully functional.

Layered navigation filters (category sidebar filters) were programmatically triggered. Click interactions on abstract category filter attributes (e.g. 3D White Polygons) update the grid and navigate correctly to corresponding sub-URLs without routing errors.

Analytics Tags & Console Health Monitoring

Most checks passed. Items marked in amber or red need a look.

TRACKING TAGS

Google Tag Manager

Manages your marketing and tracking tags in one place

Not detected

Google Analytics (GA4)

Records visits, sales and customer behaviour

Active

g-toggleLink

PAGE HEALTH DURING LOAD

Script errors

Code problems on the page

Failed requests

Files that did not load

Checked automatically every month

Thank You!

We are committed to maintaining, future-proofing, and optimizing your web operations.
