Monthly Optimization & Operations Report

audio-connexion.com — 2026-10 Comprehensive Audit & Executive Deck

Prepared by WebDesk Solution Maintenance & QA Engineering Team

Monthly Maintenance Statement

Proactive Data Protection & Backup Operations

Every month we look after your store's security, speed and reliability, so reliability, so you can focus on running the business. Regular backups backups keep your data, databases and theme safe, and automated automated checks watch the store around the clock.

This month's focus: security. We added a digital seal to an outside tool on your store, so a tampered script can't run on your pages or near your checkout. The pages that follow show what we caught, what we fixed and what comes next.

BACKUP VERIFICATION LOG

Backup Status: SECURED

✓ Database Backup:
- Compressed SQL database tables archived
- Customer accounts & order records secured

✓ Source Code & Theme Backup:
- Active storefront theme & code cloned
- Product catalog media & config assets cached

Availability & Latency

Uptime & Initial Response Time (TTFB)

WEBDESK® SOLUTION

30-DAY STOREFRONT AVAILABILITY

100% Uptime

Continuous health monitoring measured 100% availability over the last 30 days.

SERVER LATENCY & HEALTH PROBES

404 ms

- Server response time: 404 ms (fast)
- Storefront status: Online, responding normally
- Redirects before the page loads: 0

Page Loading Experience (Core Web Vitals)

Core Web Vitals Assessment: PASSED

Core Web Vitals are Google's measures of how quickly a page shows its main content and how stable it looks while loading. These figures come from this month's desktop speed test of your homepage.

Largest Contentful Paint (LCP) - Desktop

1.5 s

Status: HEALTHY (Passed) — Target: under 2.5s
Measures when the main content of the page has finished showing.

Cumulative Layout Shift (CLS) - Desktop

0

Status: HEALTHY (Passed) — Target: under 0.1
Measures whether things jump around while the page loads.

✓ Conversational Tone: Standard English score (Easy for Voice/Siri)
✓ Direct Answer Q&A: FAQ structures optimized for answer snippets
✓ JSON-LD Product Attributes: Instant price/spec extraction for AI
✓ High Tier Feature: Enterprise AI visibility monitoring enabled

Cybersecurity & Storefront Protection

Security Fix Delivered

1 weak point closed on your store this month

THE RISK

1 outside tool on your store loaded from other companies' servers, with no way to confirm the code was unchanged.

WHAT WE DID

We added a digital seal to it, matching the exact, approved version of the code.

THE RESULT

Visitors' browsers now check the seal and refuse to run any tool that has been tampered with.

NOW PROTECTED

✓ cdn11.bigcommerce.com

WHY IT MATTERS TO YOUR BUSINESS

Checkout stays protected

Card and login details can't be siphoned off by tampered code.

Customer trust is safeguarded

Your store becomes a much harder target for a "hacked store" incident.

Nothing changes for shoppers

The protection runs invisibly, so pages look and work the same.

9 other routine security items are scheduled for upcoming months.

Infrastructure Security

DNS Configurations & SSL Certificate Validity

WEBDESK® SOLUTION

SSL CERTIFICATE STATUS

Active & Secure

- Security certificate issued by: Google Trust Services
- Days until it expires: 58 days
- Expiration date: Dec 12 11:28:44 2026 GMT
- Website covered: audio-connexion.com

DNS NAME RECORDS HEALTH

Healthy Records Config

- Name Servers (NS): ns1.dotster.com, ns2.dotster.com
- Mail Servers (MX): smtp.google.com (Priority 1)
- Email sender protection (SPF): In place
- Website address (A records): Resolving correctly

Sitemap & Navigation Audit

Sitemap Integrity & Broken Link Audit

We performed a site-wide sitemap scan and status check across the store catalog. Sitemaps indexing product URLs, category hierarchies, and static CMS pages were validated to protect search indexing coverage.

Storefront Scope & Indexing

1,813+ URLs

Total storefront URLs indexed in sitemaps. A representative sample of 26 core templates & routes (PDP, PLP, CMS, and Home) was audited.

Broken Links Detected (404 / 500)

0

100% Success Rate. No missing or broken pages were found in found in the sample checked.

UI/UX Layout Testing

Multi-Device Layout & Viewport Audit

Device Viewport Scope

• **Desktop (1280px width):** Audited standard display layouts and layouts and hover interactions.
• **Tablet (768px width):** Audited grid collapsing and vertical flow vertical flow alignment.
• **Mobile (375px width):** Audited hamburger menu trigger and trigger and touch target sizes.

RESPONSIVE LAYOUT STABILITY

100% Fluid & Compliant

We audited active templates (Homepage, Product details, details, Category grids, and static info pages) for scroll sizing. sizing.

✓ Zero horizontal document overflows (`scrollWidth > innerWidth`)
✓ No content clipping or overlapping components
✓ Fluid layout scaling across all viewports

Functional Verification

Cross-Browser Compatibility & Filter Checks

Target Browser	Feature Checked	Status	Notes
Google Chrome	Catalog, PLP Navigation	PASS	Renders smoothly without visual clipping.
Mozilla Firefox	Sitemap Links, Media	PASS	Layout constraints fully respected.
Apple Safari	Catalog Navigation	PASS	Webkit engines render CSS rules cleanly.
Microsoft Edge	Layered Filter Links	PASS	Navigation & filter links fully functional.

Layered navigation filters (category sidebar filters) were programmatically triggered. Click interactions on abstract category filter attributes (e.g. 3D attributes (e.g. 3D White Polygons) update the grid and navigate correctly to corresponding sub-URLs without routing errors.

Diagnostics & Tracking

Analytics Tags & Console Health Monitoring

WEBDESK® SOLUTION

Your tracking is live and your pages are loading cleanly.

TRACKING TAGS

Google Tag Manager

Manages your marketing and tracking tags in one one place

Active

GTM-WXTTHWTH

Google Analytics (GA4)

Records visits, sales and customer behaviour

Active

G-65SVY28B3L

PAGE HEALTH DURING LOAD

Script errors

Code problems on the page

Failed requests

Files that did not load

Checked automatically every month

Thank You!
